

# Action plan based on the student feedback received in the first semester of the 2024/2025 academic year

**Department:** Central Library

**Faculty:** Central organizational unit (independent from the faculties)

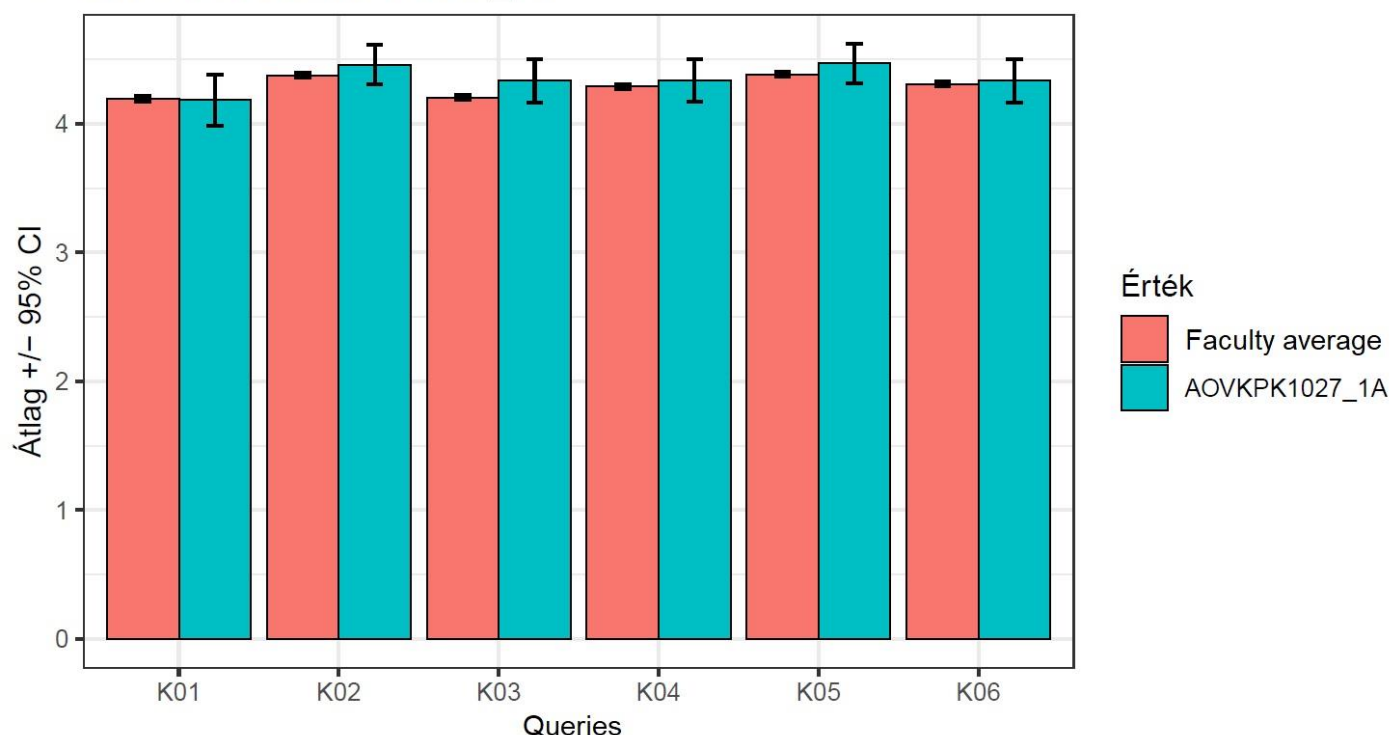

## Reflection on the implementation of the previous period's action plan ("implementation review"):

In general, students are satisfied with the content and structure of the course. There is now almost 1 week instead of 24 hours to complete the module tests and automatic saving has been introduced. All this has been well received by the students.

## Our feedback on the results of the students' survey:

The questionnaire for Library Informatics (subject code: AOVKPK1027\_1A) was completed by 47% of the students.

Source code: AOVKPK1027\_1A

Among the top scores, we highlight the well-organized teaching of the course (K02) and the high rating of the Moodle interface of the course (K05). Various additional materials on the Moodle platform of the subject support the preparation of students' learning. The students assessed the lectures and presentations to be more useful, dynamic and logical than the faculty average (K03).

The evaluation of teaching of the subject (K06) was generally in line with the faculty average – as for the two remaining questions.

QR code feedback is not relevant due to the low completion.

### **Our feedback on specific comments by the students:**

#### **Students' reflections based on the questionnaire:**

##### **You said:**

„Would be great if we could see which questions we answered wrong on the weekly tests”

##### **Our reply:**

You can check your test results in person (at the library). Presentation and lecture of Module 1 contain that information.

##### **You said:**

„Das Fach hat relevante, praktische Informationen vermittelt. Die Tests waren fair.”

„Good subject!”

„Nice Subject”

##### **Our reply:**

Thank you, we continue to improve the materials and tests of the course.

#### **Students' feedback based on the QR code assessment:**

##### **You said (Module 1):**

„Professor delivered information very clearly and it was easy to understand”

##### **Our reply:**

Thank you for your positive feedback.
