Author publishing agreement

Before Cambridge University Press can publish a journal article (or any other journal content type) we need a signed licence to publish. To find the right form, start by considering whether or not your article will be published as open access or non-open access and then select the most appropriate option.

Non-Open Access Articles

So that we have the necessary rights to publish your article, we ask you to grant an exclusive licence to publish. (We do not ask you to transfer your copyright to us.) An exclusive licence means that the rights needed to publish the article are granted to the journal owner on exclusive basis and the ownership of the copyright remains unchanged. Select the correct form from the choice of three:

Who are you and who owns the copyright?	Correct Forms	Who Signs?
I am the sole author and I own the copyright in the article OR I am one of two or more authors and we jointly own the copyright in the article		One author
I am the sole author and my non-government employer owns the copyright in the article OR I am one of two or more authors and one or more of our non-government employers jointly own the copyright in the article		Each author and each employer
I am the sole author and my government employer owns the copyright in the article OR I am one of two or more authors and one or more of our government employers jointly own the copyright in the article		Each author and each employer

Open Access Articles

So that we have the necessary rights to publish your article, we ask you to grant a non-exclusive licence to publish. (We do not ask you to transfer your copyright to us.) A non-exclusive licence means that the rights needed to publish the paper are granted to the journal owner on a non-exclusive basis and the ownership of the copyright remains unchanged. Select the correct form from the choice of two in the table below.

In open access there is a fundamental principle that content should not only be accessible but also be freely reusable for the good of research and humanity. We comply with this principle by asking you to select, within your form, a Creative Commons licence. The CC licence you choose will determine how readers can use your article.

Who are you and who owns the copyright?	Correct Forms	Who Signs?
I am the sole author and I own the copyright in the article OR I am one of two or more authors and we jointly own the copyright in the article		One author
I am the sole author and my employer (government or non-government) owns the copyright in the article OR I am one of two or more authors and one or more of our employers (government or non-government) jointly own the copyright in the article		Each author and each employer

Hybrid journal - author publishing agreement page

7. The system identifies eligibility for Open Access support based on the Semmelweis Affiliation indicated and exempts the author from paying the APC according to the EISZ Open Access Agreement.

The author should contact Semmelweis University as soon as possible and send the publication details to ejournals@semmelweis-univ.hu for further action.
