

Action plan based on the student feedback received in the second semester of the 2020/2021 academic year

Department: Central Library

Faculty: Central organizational unit (independent from the faculties)

Our feedback on the results of the students' survey:

One third of the students filled out the student questionnaires for the Literature searching, efficient publishing strategy (Neptun code: DI00132KVA_1A) subject. The results are the same or better than the faculty average.

The updated teaching materials were appreciated by the participants.

Our feedback on the general comments of the students:

Someone was displeased with the process of the final exam, so we will limit the number of the slides in the final presentations to improve our concentration on the exam.

Some other participant suggested to conduct our course a few hours weekly instead of in a block, but we tried this method in the past, and based on our experience the majority prefer the intensive course.

Date: 31.08.2021.
